

Why Early Literacy Matters

Early literacy skills are the foundation for lifelong learning.

Our programs help children:

- ✓ Recognize letters and sounds
- ✓ Build vocabulary and comprehension
- ✓ Develop confidence in reading
- ✓ Foster a love for learning

Christ-centered, supportive environment for every child.

These are multi-sensory, phonetic programs, where the student becomes acquainted with phonics through animals, songs, and stories. These features help them learn letter sounds, alphabet sequence, and word relationships.

Various activities have been designed to help each student in his physical and character development.

Building Strong Foundations in Early Literacy

Early Elementary Programs

Offered by Shine Christian Academy Society of Vermilion River, using the Accelerated Christian Education Curriculum.

Nurturing young minds through faith, learning, and growth

Kindergarten Ages 4-5

Our Kindergarten program provides a comprehensive, Bible-based reading readiness foundation, preparing children to become confident readers.

Through a phonics-based approach, students develop essential early learning skills in a supportive and engaging environment.

Our program focuses on:

- **Reading Readiness** – Building foundational skills in letter and number recognition
- **Phonics Development** – Teaching sounds in a structured sequence to prepare for reading success
- **Motor Skills** – Strengthening visual perception and coordination through hands-on activities
- **Character Development** – Integrating Bible stories, scripture memory, and Christian values
- **Independent Learning** – Encouraging initiative through clear, guided instruction
- **Individualized Pacing** – Allowing each child to learn at their own speed

This strong foundation supports a smooth transition into reading and continued academic success in the early grades.

ABC's Ages 5 +

ABC's is a multi-sensory, phonics-based reading program designed to teach students how to read with confidence. It also supports older students who need to build foundational reading skills.

Students are introduced to phonics through engaging stories, songs, and themed learning (including animals and characters) to make reading development meaningful and enjoyable.

Our program includes:

- **Reading Readiness Assessment**
- **Phonics Foundation** – Introduces letter sounds, alphabet sequences, and word relationships through engaging, structured instruction
- **Motor Skills** – Strengthening visual perception and coordination through hands-on activities
- **Vocabulary Development** – Builds early reading skills and supports word recognition and decoding
- **Independent Learning Preparation** – Prepares students for the self-paced ACE learning model
- **Character Development** – Integrates biblical principles and moral values into daily learning

This program builds a strong foundation in reading and prepares students for success in future grades.

Our Approach & Curriculum

Using the ACE system, we provide:

- * Strong phonics foundation
- * Self-paced learning
- * Mastery-based progress
- * Christ-centered education

Children will:

- ✓ Learn at their own pace
- ✓ Build confidence
- ✓ Grow academically and spiritually
- ✓ Be in an environment that fosters a love for reading
